EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

2. Authorization for this examiner's amendment was given in a telephone interview with Mr. Sismilich (Reg. No. 41,314), the undersigned, on August 15, 2006.

The application has been amended as follows:

IN THE CLAIMS:

Claim 23 has been amended.

Amend claim 23 as follows:

23. (Currently Amended) The method recited in claim 34 30 wherein the device address of the unconfigured device is generated using a hash algorithm.

REASONS FOR ALLOWANCE

3. Claims 1-4, 8-13, 15, 17-19, 21, 23, 26-30 and 32-33 are allowable over the prior art of record.

Serial Number: 09/703,388

Art Unit: 2155 Paper Dated 20060608

Page 3

4. This communication warrants no examiner's reason for allowance, as applicant's reply makes evident the reason for allowance, satisfying the record as whole as required by rule 37 CFR 1.104 (e). In this case, the substance of applicant's remarks in the Amendment filed on 30 March 2006 with respect to the amended claim limitations and further amended claim limitations in the Examiner's Amendment filed on 08 June 2006 point out the reason claims are patentable over the prior art of record. Thus, the reason for allowance is in all probability evident from the record and no statement for examiner's reason for allowance is necessary (see MPEP 13202.14).

- 5. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
- 6. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Philip B. Tran whose telephone number is (571) 272-3991. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.
- 7. Information regarding the status of an application may be obtained from the Patent Application Information Retrieval (PAIR) system. Status information for published applications may be obtained from either Private PAIR or Public PAIR. Status
